

*MN*  
6. (Amended) A ~~mollusc~~ repellent composition according to [any one of claims 1 to 5]  
claim 1, wherein the metal oxalate is selected from ferric potassium oxalate or copper  
oxalate.

*AB*  
8. (Amended) A ~~mollusc~~ repellent composition according to [any one of the  
preceding claims] claim 1, wherein the amount of metal oxalate is between about 2% to  
100% by weight of the total composition.

*AY*  
11. (Amended) A ~~mollusc~~ repellent composition according to [any one of the  
preceding claims] claim 1, wherein the carrier is water.

*AS*  
13. (Amended) A ~~mollusc~~ repellent composition according to claim 11 [or claim 12],  
wherein the carrier comprises between about 0% and 98% by weight of the total  
composition.

14. (Amended) A ~~mollusc~~ repellent composition according to [any one of the  
preceding claims] claim 1, wherein the carrier [includes] comprises a binder to facilitate the  
adhesion of the metal oxalate onto the surface of an article to be treated.

*AB*  
18. (Amended) A ~~mollusc~~ repellent composition according to [any one of claims 14 to  
17] claim 14, wherein the binder comprises between 0.1% and 100% by weight of the  
carrier.

A7 20. (Amended) A mollusc repellent composition according to [any one of the preceding claims] claim 1 further [including] comprising a fungicide.

A8 22. (Amended) A mollusc repellent composition according to claim 20 [or claim 21], wherein the fungicide is selected from copper oxychloride or thiram.

A9 23. (Amended) A mollusc repellent composition according to [any one of claims 20 to 22] claim 20, wherein the fungicide is applied as a coating in combination with a small amount of a non-phytotoxic dye.

A9 25. (Amended) A mollusc repellent composition according to [any one of the preceding claims] claim 1, wherein the composition further comprises a diluent to enable even coverage of the article to which the repellent is to be attached.

A10 27. (Amended) A mollusc repellent composition according to claim 25 [or claim 26], wherein the diluent comprises between about 0% to 95% by weight of the total composition.

A10 28. (Amended) A mollusc repellent according to [any one of claims 1 to 14 and claim 16] claim 1, wherein the composition further [includes] comprises a growth hormone.

A11 30. (Amended) A mollusc repellent composition according to claim 28 [or claim 29], wherein the growth hormone comprises between about 0.05% and 1% by weight of the total composition.

*A11*

31. (Amended) A mollusc repellent composition according to [any one of claims 1 to 30] claim 1, wherein the composition comprises a metal oxalate in combination with at least one other mollusc repellent.

32. (Amended) A method for treating an article with the mollusc repellent composition according to [any one of claims 1 to 31, including] claim 1, comprising applying the repellent composition to the surface of the article to be treated.

*A12*

37. (Amended) A method according to [any one of claims 32 to 36] claim 32, wherein the form of the repellent is selected from a solid, a suspension or coating composition.

*A13*

40. (Amended) A mollusc repellent composition, according to [any one of claims 1 to 31] claim 1, in the form of a coating composition.

41. (Amended) A mollusc repellent composition, according to [any one of claims 1 to 10] claim 1, in the form of a paint.

*A14*

47. (Amended) An article treated with [the] a mollusc repellent composition [according to any one of claims 1 to 31] according to the method of [any one of claims 32 to 39] claim 39.

#### REMARKS

Entry of the foregoing and early and favorable consideration of the subject application is respectfully requested.
